Continuing Professional Education – 2026

Self-Study and Online in Person

Our Continuing Professional Education programs are available in two formats this year.

Distance learning: Designed to be studied online. 1½ **CPE accredited hours:** cost: **£75 per program**
You will receive a set of notes and a questionnaire to complete and return. The notes contain many external links to click to additional, more detailed content.

Hybrid: Private study and in-person meeting: 1½ **CPE accredited hours:** cost: **£95 per program**
Notes to read in advance. A live over Zoom, in-person, lecture follow by a Q&A and discussion session.

Topics for 2026

1. Notaries Now: What's New in 2026

Stop wasting time tracking compliance—we've done the heavy lifting for you!

The Faculty Office completely overhauled its website into a massive 225-page maze (November 2025) … so many NEWS items. Much new guidance, rules, external reports….. We have scoured the FO's web pages to bring your attention important changes you need to know about.

- From the FO website, NEWS and rule changes … Conduct and Discipline, Code of Practice new chapters, updates on sanction,
- External regulations and guidance …
- PLUS whatever else comes to mind …

2. Electronic Notarisation, Digital Documents and Remote Appearance

If you are wondering if you should offer an e-apostille service *or* do you want a reminder of, and an update to, the Faculty Office's regulations: read on.

PART ONE: an in depth review the Faculty Office rules and guidance including the **NEW** Code of Practice

PART TWO: a practical guide to electronic documents & remote appearance, outsourcing verifying the identity of clients, e-notarisations infrastructure, an example Digital Risk Assessment Form

EXTRA CONTENT: includes: Digital Identities Across Europe

3. Anti Money Laundering: Prevention in Practise

No longer a minor "tick-box" exercise. Official figures tell us that fraud is now the most prevalent crime against individuals in England and Wales, accounting for approximately 41% of all crime. And with 72% of fraud relies on **stolen identities** and compromised data, notaries need to look out!

Notes include:-

- Updates to existing rules and guidance aimed at the legal profession in general (Data Use and Access Act 2026) and the notarial profession in particular.
- HM Gov's Money Laundering Advisory Notice February 2026 require the UK regulated sector to apply enhanced customer due diligence
- An example GDPR-compliant Privacy Policy incorporating the FO 2026 regulatory changes: - mandatory remote appearance and digital risk assessments.

To order a distance learning program, or to reserve an online seminar place, complete the following form and email us or Order and pay online
